

Intern program

NEC Australia

This program is designed to provide current IT students with the opportunity to gain hands on experience whilst completing their studies. Launch your career with NEC.

Overview

As an NEC Intern, you would be challenged to step up, think beyond what's possible and to go the extra mile for our customers.

You will have the opportunity to utilise the knowledge gained in the classroom in a real work setting, helping to bridge the gap between being a successful student and an invaluable employee.

We will support you to develop and grow by:

- Building your technical skills through on-the-job learning
- Working with a variety of our most talented industry leaders to identify opportunities, grow your confidence and build visibility of your skills and abilities throughout our business
- Developing your career through exposure to a range of new and unique experiences that only a business of our size and status can offer

Our Intern program integrates on-the-job experience, coaching and feedback to ensure you are set on the right path for your future career aspirations. This program provides a direct pathway to our graduate program.

Eligibility

- Currently enrolled in an undergraduate or post graduate qualification in Computer Science, Information Technology, Networking, Software Engineering or another technology related discipline
- You are an Australian permanent resident or Australian citizen at the time of submitting your application

We're looking for motivated and engaged students

Who are we looking for?

We are looking for motivated and engaged students who share the NEC values of innovation, collaboration, integrity and leadership and who are passionate about their field.

Excellent communication skills, along with a commitment to delivering exceptional internal and external customer service, are essential, as are problem solving skills and the ability to work well within a team.

About NEC

Our vision

Shaping the most efficient businesses and creating a safer society by solving tomorrow's technology challenges.

Company overview

NEC has delivered world-class technology solutions and services to customers for more than a century. In Australia, NEC is a sophisticated technology and anything-as-a-service company which brings together the best technology and the best people to ensure our customers capture maximum value from their IT and networking investments.

NEC connects people through reliable communication infrastructure while also helping to keep our communities safe and secure with intelligent surveillance systems and the world's leading biometrics identification technologies.

NEC's broad range of business domains extend from outer space to the ocean floor. Its worldwide operations as a global leader in IT and networking has 200 group companies employing 100,000 people in 160 countries.

Why customers choose NEC

NEC Australia can support customers throughout their business lifecycle. Our solutions and services range from stand-alone product solutions through to ICT business transformation support.

We can provide customers with end-to-end technology solutions and services spanning the design, build and ongoing support of ICT solutions, helping customer maximise the ROI from their technology investments. We do this by taking a holistic view of their business and technology environment, including assessing strategy, technologies, operations, people and processes.

Our service is differentiated by our:

- Dedicated professionals who do whatever it takes to deliver success in a consultative manner
- Partnerships with leading technology companies
- Reliability, ability to deliver and national footprint
- Access to local and international expertise
- Ability to innovate and come up with flexible solutions
