

# Consulting Services

## Secure Networks

### *Leverage our expertise to optimise your network for peak performance*

In today's fast-paced digital world, having a robust, efficient, and secure network is crucial for business success.

In addition to a range of fully managed services, our certified and highly experienced team provide professional services, including top-tier consulting services to ensure your infrastructure is performing at its best.

NEC's experts work closely with you to develop strategies that align with your business objectives, while ensuring compliance with industry standards and regulations.

1

### 5G and Wi-Fi Convergence

- Create a cohesive, high-performance network infrastructure
- Empowers organisations to embrace the full potential of wireless connectivity

2

### Traditional WAN to SD-WAN Migration

- End-to-end approach minimises disruption
- Enhanced security and resiliency
- Maximise the benefits of adopting SD-WAN technology

3

### IT & OT Convergence

- Expert guidance on IT and OT integration
- Achieve an integrated, secure, and innovative operational environment
- Holistic security strategies that address vulnerabilities

## Traditional Networking to Software-Defined Networking

- Improve agility, flexibility, performance, and efficiency
- Centralised control and automation
- Minimised risk and a streamlined migration approach
- Reduced operational costs

4

## End-User & Application Performance Management

- Optimal performance, availability, and user experience
- Continuous monitoring and proactive analytics
- Improved staff productivity and efficiency

5

## SASE Migration

- Convergence of security and networking functions into a single service
- Optimisation of network traffic
- Enhanced application performance and user experience regardless of location

6
